

i do now agree with this action that has been taken to stop satallite radio. this dicission was only made so that the people who own the radio stations wich are supposed to be free for all to listen to will not loose money. i am ashamed that this is happening in my country.

let xm run what ever programing they want to. People will listen to what they want to and not to what they don't. this is a free country isn't it? i mean are we not trusted to make up our own minds? if not then how did you get into your positions ? buy people we voted for, people we MADE UP OUR MINDS TO REPRESENT US. it worked then so how did we become so stupid all of a sudden ?
